

Travis Rodgers

WordPress Web Developer

LYNCHBURG,
VIRGINIA

About me

Hello! I'm a WordPress Web Developer with over 3+ years of experience building websites, consulting, and providing custom coding solutions for small businesses and agencies.

Working for your company I bring the expertise of one who has been successfully self-employed for over a year, and have not only the coding competency, but the hands on experience solving web-based problems for clients and small businesses. I'm always eager to learn new things and to contribute back what I can to the team.

I would appreciate the opportunity to discuss how I can add value to your business.

Work history

2017–PRESENT, **Web Developer at Travis Media**

I on-boarded clients and designed, developed, and launched modern, responsive WordPress websites. I also provided custom coding solutions to meet the specific needs of small businesses. In addition, I maintain a thriving blogging presence and am creator of a number of online coding courses.

2007–2017, **System Analyst at XYZ**

XYZ is a regional, nonprofit healthcare system. There I maintained the speech recognition system and the software for our Medical Transcriptionists.

Education

2016, **Web Developer Track**

Bloc

2016, **WordPress Developer Blueprint**

Skillcrush

2011, **Bachelor's degree**

Liberty University
